ONTARIO FERTILITY TREATMENT TAX CREDIT

Now available for 2026

The Government of Ontario has introduced a refundable Fertility Treatment Tax Credit to provide additional financial support for individuals and families pursuing fertility care.

- The credit covers 25% of eligible fertility-related expenses, up to a maximum of \$5,000 per year.
- This credit supplements the existing federal and provincial medical expense tax credits.
- For example, if a privately funded IVF cycle costs \$20,000, you may be eligible to receive \$5,000 back through this program.

Eligible expenses may include:

- IVF treatments
- Fertility medications
- Diagnostic testing
- Travel costs related to fertility treatment

Patients are encouraged to retain all receipts for eligible expenses and consult a tax advisor when filing.
